

Bamboo's warmth and richness match a wide range of home styles, from modern to retro. With a textile-like surface appearance, bamboo doors complement cabinets, floors and furnishings for an integrated home design.

Simpson Bamboo Doors are:

- **Beautiful** - Simpson specifies a light colored, flat grain material, which best captures the natural aesthetic of bamboo
- **Durable** - bamboo is as hard or harder than just about any hardwood
- **A Friend of the Environment** - bamboo is a fast growing grass, allowing it to be harvested in a much shorter life cycle vs. other wood species

Looking for more design choices for interior and exterior doors? Look to Simpson. We manufacture over 900 standard door designs along with custom designs to match any style of home.
