

WHAT IS SIMPSON SDL?

Simpson Simulated Divided Lite (SDL) is the newest option for ordering your Simpson French and Sash doors. SDL features a single glass unit with bars applied to the glass surface. Combined with an internal "shadow spacer," SDL provides the appearance of a true divided lite door.

WHY SIMPSON SDL?

Simpson has been manufacturing divided lite doors for nearly a century and recognizes a number of benefits with SDL:

THE LOOK OF A TRUE DIVIDED LITE DOOR

- Bars are permanently affixed to glass surface
- Internal shadow spacer completes authentic look

IMPROVED PERFORMANCE

- Achieve ratings to meet hurricane and design-pressure (DP) requirements with divided lite look
- Realize higher energy efficiency ratings with a single glass unit

UNCOMPROMISED DESIGN OPTIONS

- 7/8" bar thickness
- Glass textures available
- Select from two bar styles: ViewSaver® and Shaker

EXPANDED WATERBARRIER® CHOICES

- Achieve the performance advantages of Simpson WaterBarrier technology with a divided lite look

DOORS WITH WATERBARRIER® TECHNOLOGY
